

## Key Facts

austriamicrosystems is a global leader in the design and manufacture of high performance analog ICs (integrated circuits). We develop and produce industry-leading analog semiconductors, including high performance standard products and customized solutions.

austriamicrosystems focuses on the areas of power management, sensors & sensor interfaces and mobile infotainment in its markets Consumer & Communications, Industry & Medical and Automotive, complemented by its Full Service Foundry activities. We combine more than 28 years of analog design capabilities and system know-how with our own state-of-the-art manufacturing and test facilities, offering the benefits of a vertically integrated supplier.

### Leading edge products

austriamicrosystems leverages its significant expertise in low power consumption and high accuracy to provide best-in-class products for consumer, communications, industrial, medical and automotive markets worldwide. We bring our world-class capabilities to exciting solutions for mobile handsets, media players and readers, MEMS microphones, blood glucose measurement, automotive safety systems such as ESP, industrial sensor interfaces and a wide range of other applications. Many of our customers are leading global OEMs and rely on austriamicrosystems as their sole source supplier.

austriamicrosystems' ICs can be found worldwide in many areas of daily life – in mobile phones, audio/video players, e-book readers and other handheld devices, portable blood glucose meters, diagnostic imaging equipment such as CT scanners and digital X-ray, keyless go systems, electronic stability programs in cars, and automotive battery management, to name but a few examples where our products make your life easier, safer and more comfortable.

### State-of-the-art manufacturing

austriamicrosystems operates a leading-edge 200mm (8") fab in Austria and test centers in Austria and the Philippines. Our high performance analog and mixed-signal process technologies include CMOS, HV-CMOS and SiGe (silicon germanium). We are a recognized leader in high voltage CMOS technology which offers significant advantages in a wide range of applications. A strategic co-operation with IBM supports our manufacturing roadmap and ensures access to state-of-the-art processes for both partners.

### Research & Development focus

austriamicrosystems offers more than 28 years of experience in developing high value analog solutions and continues to invest significantly in research and development to offer cutting-edge products and technologies.

### Global presence

austriamicrosystems employs more than 1,000 people in Europe, America, and Asia with product design and sales locations in Austria, Italy, Germany, France, Spain, Finland, Sweden, Great Britain, Switzerland, the U.S., Hong Kong, Singapore, Japan, China, Taiwan, India and South Korea. Our sales and support organization and a global network of distributors ensure full access to a broad spectrum of customers in major markets worldwide.

### Quality and environmental management

austriamicrosystems is committed to meeting the highest quality standards and has been certified according to TS16949 and ISO13485 as well as ISO 9001 and Ford's Q1 certification. These certifications make us one of the few semiconductor manufacturers worldwide to be fully automotive qualified. austriamicrosystems strives to be a leader in responsible environmental practices and was one of the first semiconductor manufacturers to be certified according to ISO 14001 and the European EMAS scheme.

### Stock market listing

austriamicrosystems is listed on the SIX Swiss Exchange in Zurich (ticker: AMS).

### Executive board

John A. Heugle (President and Chief Executive Officer)  
Michael Wachsler-Markowitsch (Chief Financial Officer)

### Management team

Franz Faschinger (SVP& GM Industry & Medical BU)  
Kambiz Dawoodi (SVP & GM Consumer & Communications BU)  
Bernd Gessner (SVP& GM Automotive BU)  
Thomas Riener (SVP & GM Full Service Foundry BU, Director Communications)  
Eric Janson (SVP Sales & Marketing)  
Walter Mente (VP Operations)  
Engelbert Liebming (VP Human Resources)  
Moritz M. Gmeiner (Director Investor Relations)
